PROJECT

Mogmax *March 2024 - April 2024*

- MogMax is an application that users can upload their photos and get scores by AI.
- The app use artificial intelligence (AI) algorithms to analyze certain data or inputs and provide users with a score or assessment related to various aspects.

Pinto Ebook *July 2021 - January 2023*

- Pinto e-book is a unique and innovative concept that brings the warmth of a physical bookstore to the digital world.
- The website offers a wide range of genres to choose from, including novels, comics, and general books, which caters to the diverse reading tastes of all book lovers.

Fictionlog *July 2021 - January 2023*

- Fictionlog is an all-in-one online fiction archive and e-book store where you can read, write, and sell your own books.
- Over 1+ million downloads on app stores, it offers a convenient and enjoyable reading experience for everyone.
